Means contact name which are not available in the Google Search results How can I get this? I'm using Google People API A: Simple answer is you can't. Google doesn't make this information public. If you want to get information on "excluded" people then you need to find the information yourself. Q: Calculate -diamond-numbers - python Im new to python and i have a problem. Its a very simple code, but i couldnt get it to work. Input: Number of rows: 3 Rows = 0 Columns = 0 It only prints the r and c and it should print all of the combinations in the range of the given numbers. I know it could be a good luck question but i need help. Example: Let r = 5 c = 3 Binary numbers are : 1 0 1 0 1 5 ways to choose 3 numbers 5 ways to choose 2 numbers 5 ways to choose 1 number so the total should be 25 Code: r = input() c = input() print(r, '\*', c) #r \* c is the only alternative I could think of. for nums in range(r \* c): for digits in range(r): for digits in range(c): print(f"{nums}", end=' ', fill=f' \* ') print() A: The problem is that you are checking the same combinations multiple times. The outer loops are equivalent to: for i in range( b7e8fdf5c8
